## PROFILE

As an engineer and a web developer, I am able to merge engineering with coding to develop efficient and creative web solutions. My previous work experience in the business side of healthcare enables me to acknowledge business core values and prioritize tasks to manage costs as well as to leverage a company's profitability.

## SKILLS

HTML5      Cascading Style Sheets      JavaScript      jQuery      Node.js      Express.js      PostgreSQL      Photoshop  
InDesign      Microsoft Office      Illustrator      Team Leadership      Project Management      AJAX

## EXPERIENCE

### GENERAL ASSEMBLY

*Web Development Immersive Program*

**New York, USA**  
**2017-2017**

- Project 1: Connect 4 - A two players game, which the goal is to get four pieces of the same color connected in a row, vertically or diagonally. (<https://git.generalassemb.ly/dkoreeda/project-01-connect4>)
- Project 2: Travel Planner - A web application developed to help travelers to create their own itinerary or save wishlist with places of a specific city. (<https://git.generalassemb.ly/dkoreeda/project-02>)
- Project 3: Attender - A web application developed to help teachers to take students attendance in class. (<https://attender.herokuapp.com/>)

### AIR LIQUIDE - VITALAIRE

*National Operations Analyst*

**São Paulo, Brazil**  
**2013-2015**

- Mapped and identified improvement opportunities in operational processes including inventory management, transportation and distribution, customer service and maintenance
- Led planning and implementation of new in-house system for customer service, including call center and CRM
- Managed annual budget of medical equipment inventory, involving purchase, turnover and obsolescence of inventory items
- Monitored annual budget of operating costs, identifying and addressing opportunities for cost savings

## VOLUNTEERING

### CHILDREN'S HOME ORPHANAGE

*English Tutor*

**Prague, Czech Republic**  
**2013**

- Lectured English for 40 children aged 9-18, prepared and delivered lectures, provided homework tutoring and developed learning games
